

PET GUIDELINES

Welcome to our cottage

We want you and your furry friend to have the best stay possible, which is why we kindly ask that you read the following information...

What is my pet allowed to do in the cottage?

- 1.) If you allow your dog on the sofa please place a dog towel or use the dog throw provided in the dog welcome basket. Please note that dogs are not allowed on the beds.
- 2.) Dogs can be left in the cottages unattended for reasonable periods of time, but please use the kitchen area only.
- 3.) Minehead beach, which is just outside the cottage, allows dogs on it from September - May. Other year round dog friendly beaches, such as Dunster Beach, are only a five minute drive away.
- 4.) We are a flea free property. To help us keep it that way we ask all furry visitors to be checked for fleas and to be kept up to date with preventative flea treatment before visiting the cottages. So you can rest assured your pets won't be returning home with unwanted guests.
- 5.) It is the owners responsibly to clear up after your pet - thank you.
